Scott A Hibbs, KD4SIR, as Vice President of TARS, scanned all these documents compiled by Mr McGuyer into pdf files for the club to archive and share among the membership. These were originally placed in two binders 3.5 inches thick. After scanning they were separated into acid-free plastic sheets and rebound to further preserve them. This was done in the first Quarter of 2022, to celebrate our 75th Anniversary of our beloved club.
